## **P-SERIES**

# THINK BIGGER

- EPA/CARB-Certified Diesel Engine 6-Cylinder
  Heavy-Duty Steer Axle
- Enclosed Operator Cabin

- Engine Monitoring System
- > 22000 125000 lb. Capacity
- ▶ Load Center of 24," 36" and 48"

P220-P1250

## HOIST P-SERIES ADVANTAGES

**FACTORY BUILT TO ORDER** 

featuring modular construction — including the mast — for greater durability and easier servicing

7" COLOR TOUCHSCREEN DISPLAY onboard diagnostics and operator controls

EXCELLENT VISIBILITY

is provided from the operator's position in all directions

ADVANCED ERGONOMICS for optimal comfort and increased productivity

> AXLETECH® HEAVY-DUTY FRONT AXLE for maximum durability

市会会

AIR RIDE SEAT enhances operator comfort and support

designed for rugged applications

#### **STANDARD FINGERTIP CONTROLS**

to accommodate operator preference

#### CUMMINS<sup>®</sup> 6.7-LITER<sup>1</sup> OR 8.9-LITER<sup>2</sup>, **6-CYLINDER TIER 4 FINAL DIESEL ENGINE**

to power the heaviest applications while meeting increasingly tough emission standards

# MASSIVE JOBS JUST MET THEIR MATCH

#### **HOIST P-SERIES FORKLIFT**

Our biggest forklift is your best weapon for the most demanding jobs. Think ports and shipping containers. Construction sites. Lumber, brick, block, and pipe. Forging and manufacturing. Then think bigger. Think Hoist. With a 6-cylinder CUMMINS<sup>®</sup> diesel engine, Dana transmission and a lift capacity up to 125,000 pounds, the rugged P-Series can handle almost any heavy load, even in the most challenging conditions. Ready? The P-Series is. Let's get to work.

### **BUILT TO TAKE IT**

The might of a CUMMINS 6.7-liter, 6-cylinder diesel engine. The pulling power of three forward and three reverse speeds. And the strength of a rigidly welded frame and extremely durable steer axle. Add an engine protection system and wet disc brakes, and you're set for maximum heavy-duty productivity with minimal downtime. Even the paint is tough. Starting with a two-part, rust-inhibiting basecoat, followed by a two-part polyurethane topcoat. A majority of components are powder coated, too. All for extra corrosion protection. Bring it on, the bigger the better.

#### **POWER, UNDER YOUR COMMAND**

All that brawn comes with plenty of brains. A vehicle management system with onboard diagnostics shares useful information and timely alerts. Standard fingertip controls provide smooth material handling and variable speed control of all functions. A low-profile counterweight makes the P-Series easy to maneuver and puts you confidently in control.

#### COMFORTABLY AT EASE, VISIBLY MORE PRODUCTIVE

An enclosed operator compartment with clear sight lines reduces exposure to the elements while providing superior visibility. A premium air ride seat, heater, and operator fan come standard, keeping operators comfortably productive over the course of a shift. Add a two-stage, wide-view mast — with lift cylinders mounted directly behind the mast rails — and enjoy a reassuringly wide field of vision, too. See more, do more.

## CARRY THE DAY, WHATEVER IT HOLDS

INS'

\*

SERIES

Bring your highest expectations. Prepare to have them exceeded. Strength, durability, and reliability are all standard equipment on the P-Series. Not just the toughest workhorse, the workhorse that stands up to anything you throw at it. Rely on it.

### AN INVESTMENT THAT PAYS YOU BACK

..

Adding a new forklift to your fleet should be an investment that lasts. Hoist demands the best for its customers. It's a forklift with better components and meticulously planned integrated systems that work together to deliver intuitive, dependable performance day after day. Hoist forklifts don't often require service. But when they do, it's fast and easy — by design. And superior Hoist quality means more productivity over the lifecycle of your forklift, along with lower repair costs. Higher residual value is another bonus.
